PROGRAMME OF EVENTS

Autumn 2011

September - December

www.collegeofpsychicstudies.co.uk

Welcome to the autumn 2011 programme. This term we explore the theme of consciousness; indeed the whole notion of consciousness remains the greatest mystery of all time.

Many have grappled with the question of whether, in our physical universe, there can be said to be an independent unseen reality. The relationship between perception, reality and the underlying nature of the enigma we refer to as consciousness has been explored by philosophers and scientists alike – but it remains the secret of secrets.

And yet the question of whether there actually exists an entirely independent reality, one that holds responsibility for all that is seen and unseen, remains unanswered to this day.

Perhaps, cynics argue, that is why the very idea of there being a consciousness that extends beyond matter itself is so compelling. It's worth noting that those who refute the possibility of such a phenomenon are in fact assuming that our present knowledge of the human psyche is total and complete. As the eminent psychiatrist Carl Jung observed, "There are historical reasons for the resistance to the idea of an unknown part of the human psyche. Consciousness is a very recent acquisition of nature, and it is still in an experimental state. It is frail, menaced by specific dangers, and easily injured."

We hope you will continue to enjoy the College's varied programme of events, and that our diverse range of subjects continues to assist you on your journey of personal and spiritual development.

Best Wishes,

Max Eames

The Founding Father of Sound Therapy and The Tama Do (Way of the Soul) Academy

FABIEN MAMAN

Musician, composer, acupuncturist, martial artist, Fabien Maman is the founding father of vibrational sound therapy (as defined by Webster's Dictionary). In the early 80s, he conducted revolutionary biology experiments showing the impacts of acoustic sound on human cells and their energy fields. Founder of Tama-Do (Way of the Soul), the Academy of Sound, Color and Movement®, Maman has spent nearly 30 years creating research and applications to ground the Soul in daily life. In commemoration of the 30th anniversary of Maman's sound/cellular experiment, Fabien Maman has returned to the UK to talk about his work and about The Tama Do Academy which now trains in the UK.

All Tama-Do techniques have been rigorously tested for more than seven years by Fabien Maman, whose evolutionary body of work, spanning more than 30 years, is grounded in sound/cellular research, as well as the classical traditions of music theory, mathematics, Chinese medicine, aikido, Kototama and astrology. Maman has authored a series of four books: From Star to Cell: A Sound Structure for the Twenty-First Century, as well as Accessing the Way of the Soul through Color. Maman's sixth book, The Tao of Sound: Acoustic Sound Healing for the 21st Century, will be a manifesto for acoustic sound, and follows his 30 plus years of sound research.

Making Mediumship Evidential

TONY STOCKWELL

A one day workshop for those with experience in Mediumship Development. This is a practical day and will include constant work, assessment and instruction. Look at enhancing the evidence you receive in your mediumship and how to focus the mind to bring through specific details within your Spirit Messages. Understand how you are often receiving more than you realise, get out of your comfort zone and start to include communicators names, relevant dates and specific details in your work. Rather than just include very general physical descriptions of spirit communicators, random unrelated names and dates and generalised information explore how you can work with real and very specific details and unique characteristics unique to that individual.

The workshop includes exercises that are designed to encourage you to really push you to work with spirit to bring greater clarity and detail in your spirit contacts. This class is not suitable for beginners or those with little development experience.

For Tony's biography please see Demonstration of Mediumship; Tuesday 27 September

The Angels of London and Guardians of the Sacred City

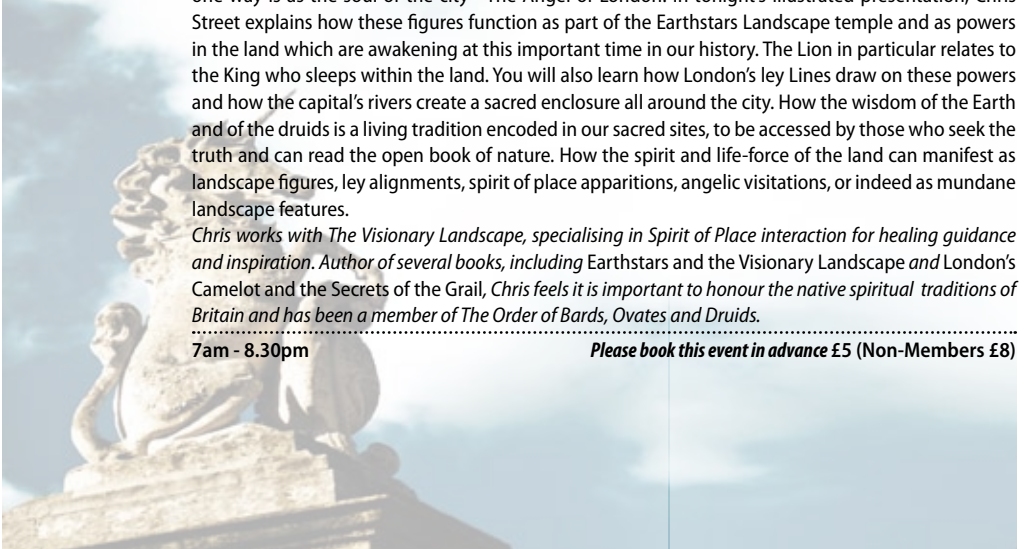

CHRIS STREET

Two huge figures are etched into the landscape either side of London. Facing due east is a seated, sphinx-like lion; facing west is a reasonable likeness of a unicorn, complete with horn. These are the heraldic guardians of Britain. How did they come to be emblazoned upon the landscape around London? The London Earthstars discovery isn't just a landscape temple of sacred geometry, connecting the capital's sacred sites. The energy within it is the life-force of the land and it manifests in many ways; one way is as the soul of the city - The Angel of London. In tonight's illustrated presentation, Chris Street explains how these figures function as part of the Earthstars Landscape temple and as powers in the land which are awakening at this important time in our history. The Lion in particular relates to the King who sleeps within the land. You will also learn how London's ley Lines draw on these powers and how the capital's rivers create a sacred enclosure all around the city. How the wisdom of the Earth and of the druids is a living tradition encoded in our sacred sites, to be accessed by those who seek the truth and can read the open book of nature. How the spirit and life-force of the land can manifest as landscape figures, ley alignments, spirit of place apparitions, angelic visitations, or indeed as mundane landscape features.

Chris works with The Visionary Landscape, specialising in Spirit of Place interaction for healing guidance and inspiration. Author of several books, including Earthstars and the Visionary Landscape and London's Camelot and the Secrets of the Grail, Chris feels it is important to honour the native spiritual traditions of Britain and has been a member of The Order of Bards, Ovates and Druids.

11 October 2011 (Tuesday)**The Human Energy Field Explored ~ Kirlian Photography****NIGEL GARION-HUTCHINGS**

We all live in two worlds. There is the phenomenal or sensual world that we can see, hear, touch and smell and the inner psychological invisible world that largely determines our experience of the world of the senses. Nigel will demonstrate and discuss how Kirlian electro-photography can give us an insight into how the meeting of these two worlds can influence our energy life fields. He will talk about how we can decrease our susceptibility to negative fields and improve our reception of positive ones, and the impact this has on our sense of wellbeing.

Nigel is a practicing homeopath and founder of the Association of Registered Kirlian Electrographers. He is a published author and international speaker on matters of holistic health and Kirlian electrophotography.

Steve Taylor interviewed many people who experienced permanent spiritual awakening after going through intense turmoil and stress. After undergoing a breakdown they all broke through to a higher state of consciousness, with a new sense of appreciation, connection, meaning and purpose. Steve will tell some of these amazing stories, illustrating the almost infinite capacity of human beings to overcome suffering. He will explain why turmoil has this awakening effect, and suggest what we can do to attain this state of liberation without actually going through the suffering. He will suggest what we can do to transform our own experiences into spiritual awakening, so that the base metal of suffering turns into the gold of intense well-being and freedom. *Steve Taylor is the best-selling author of several books on spirituality and psychology, including The Fall, Making Time, Waking From Sleep and his new book Out of the Darkness.*

Within your awareness, is the on-going existence of a still, silent space. A peace. However, you can end up missing it if you've forgotten it's there. Growing up most people were encouraged to put 100% of their attention on the movement of their mind, their body and their life. They were rarely, if ever, educated in the enlightening truth that absolutely everything happens within a constant context of pure and perfect, still, silent awareness. Or in other words, how the mind, body and world all exist within an infinite and on-going presence of peace. Sandy will share insights and exercises for discovering the underlying silent, peaceful nature of reality that, as he explains, is your birthright to experience, explore and enjoy. *Sandy Newbigging is the creator of the Mind Detox Method (MDM), a teacher of meditation, and the author of five books including the brand new, Peace for Life: Freedom from problems for better health and happiness (2011). Sandy is a regular columnist for Yoga Magazine and his work has been featured on television around the world on channels including FoxTel, BBC Prime and Discovery Health.*

Touching the Unseen Human Energies ~ Part 1 ~ Know Thyself

SIR TOM LUCAS

In ancient times, if you were concerned about your future prospects, relationships or health, you would consult an oracle and be shown certain spiritual insights and practices to help you. This first workshop reminds us of the words 'know thyself' of the oracle at Delphi as we face the great cosmic, planetary and social changes now underway. In this workshop, working together and in pairs, you will get a clear overview and understanding of how knowledge of the subtle connections between your psychic timelines, chakras and consciousness, and your using the classic tools of meditation, the I Ching (the Chinese Book of Changes), and Spirit-directed healing, will help you to master the forthcoming emotional and biological stresses of your life. The workshop includes a copy of Tom's diagrammatic work-book *Touching the Unseen in Ten Minutes* for anyone who has not already acquired one. *Tom is a healer who works at The College. He is also, somewhat uniquely, a scientist who earlier in his career worked at Cambridge and at the first quantum collider at CERN.*

Clear Communication

GERRIE MARCH

Learning how to deliver clear communications, using psychic intuition and mediumship can be compared to learning a new foreign language. First we become familiar with words and their meanings, then simple sentences followed by phrases, special expressions, grammar etc, eventually leading to fluency in the language. Using simple exercises, meditation and discussion we can understand more about how our own individual language in both these areas can be clearly expressed, as each student is different to another. The role of the messenger will also be covered, to prevent any personal attitude or opinion interfering with the communication. Clarity can then be experienced. All welcome.

Energy Wizard ~ Finding Your 'Still Point'

PEMMA FOX

This workshop will take participants on a journey of discovery in finding out what the difference is between Illusion and Truth. The clear focus will be in the middle – the place of Trust. This is the Still Point. Participants will be asked to look at when we flow in ease, and when we somehow “need” the struggle? We will examine the benefits of operating in the light and shadow of each. Sometimes we unconsciously sit in the middle and then topple into experiences that don't really benefit us. What does that feel like? Do

our egos need 'illusion' OR can we live simply in Truth? By the end of the day participants will access their courage to look within and see what motivates and stimulates. From here, they will begin to confidently live a life of their own choosing, and do the work they're drawn to - from a place of peace, joy and harmony. *Pemma brings her Tibetan heritage and Western education to focus on energy integration. She is a Chi Kung practitioner and Ki master trained in Thailand and Korea, together with being a trained Westminster Pastoral foundation therapist. Transformative Mindfulness ~ Transforming Problems

JANET LIMB

Mindfulness practices originate from Eastern religions and focus on mind control. As human beings we can spend too much time reliving the past and rehearsing the future instead of being fully present in the moment. To be mindful is to live simply and directly with what is and can be a doorway to our divine consciousness. In this workshop you will work with the Transforming Problems technique, a powerful yet enjoyable process, which assists in transforming afflictive feelings, patterns, stress, fear or resistance to change. It facilitates healing in a gentle way to allow you to move beyond your problems. This process works with drawing and writing about a problem which allows you to gain clarity and insights around this and then access your own intuition in order to move forward more effectively. Our mind often speaks to us most

honestly through symbols and images which can be the gateway to healing and a way to access our own intuition and inner wisdom. Be prepared for some new insights which will bring greater clarity in your life for your way ahead. This unique process than can bring some powerful transformation to any problem or difficult issue.

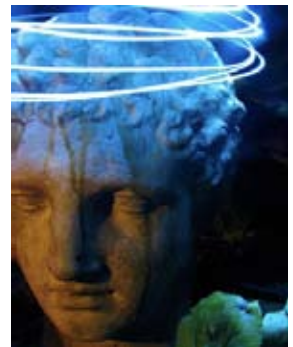

Janet Limb trained at The College as a healer, psychic and medium. She works at The College and at Spiritualist churches. A College tutor for many years, she has studied various meditation practices including Buddhist traditions and most recently Transformative Mindfulness.

Healing the Aura and Chakras Using Colour and Crystal

REBEKAH ARTHURS

Colour is intimately linked to all aspects of life. We use colour to describe our physical health, emotional feelings and even spiritual experiences and of course, colour is intrinsically linked with the aura and chakra system. Using clear quartz points, pendulums and coloured scarves, you will work in pairs and be shown how to move in and out of the aura to locate energy blocks. Wrapping coloured scarves around the body or holding them in the aura and using crystal points, these blocks will be gently released. You will also learn how to read chakra energy using a pendulum and whether the appropriate colour of the chakra or the opposite colour or indeed, an entirely different colour should be used in the healing process. Clear quartz points will again be used in conjunction with the colour scarves to energise and rebalance Chakras which may be out of alignment. Some experience of the aura and chakras is recommended.

During this unique workshop we will engage in two major rituals to achieve this: Heavens Gate and Venus Vision, achieved through Pranic Enchantments and Sona Songs. The rituals are designed to open fifth-dimensionality, and will hugely expand awareness of who you are, connected to higher levels of consciousness, and restored within the memory of infinite possibility.

JENNY LEE

This course will show you how to ground and protect yourself, and help you sense when you are not grounded. With practical exercises, discover how to open up your sensitivity, close down your psychic mechanism in daily life, and sense when you or others are too open. Recognise when someone is depleting your energy, and learn how you can prevent this and then replenish your energies. Use imaging to start letting go of negative energies (e.g. fear), self-criticism and guilt which hold you back. This course will help you to develop your psychic or healing ability, or simply understand your relationship with yourself and others.

Consultations

It is the aim of the College to demonstrate sensitivity, mediumship and trance of the highest standard. All our consultants have trained for many years and are vetted on a regular basis to ensure standards are maintained. However, please be aware that a consultation is a spontaneous process and the **outcome cannot be guaranteed**. For example, it may not be possible to make contact with a specific person in Spirit but others may come through with messages for the sitter. On balance, a good reading should help you achieve clarity and insight into your life situation, and enable you to move forward with confidence, empowered to make your own decisions. Sessions last for 50 mins.

Each term the College presents a variety of respected and well-known psychics, mediums and healers from all over the United Kingdom and abroad. While some visit us mainly to give lectures and workshops, we are delighted that many of them also choose to make themselves available for private consultations at the College. Sessions usually last an hour. Please book early as places are limited.

Before booking a consultation, it may be helpful to reflect on **what it is you require from the session**. Do you want evidence of survival (messages from loved ones in Spirit) or spiritual/life guidance? Do you need to see a medium or a psychic, a healer or a spiritual counsellor?

Most consultants allow their **sessions to be recorded**. Sitters are welcome to bring their own recording device. The College no longer provides recording equipment.

For those consulting a medium for the first time we would ask that you come to the sitting with an open mind and a willingness to be receptive. More information can be found in our leaflet 'Guidelines on Consulting a Sensitive/Medium', available from Reception.

It is advisable to wait **six months** from bereavement before booking an appointment with a medium.

Your choice of sensitive will largely depend on your needs and so it is recommended that you focus on these when reading the descriptions of our consultants on the following pages.

A sitting is a form of scientific experiment that both parties enter into freely, and the **results cannot be guaranteed**.

All consultations **must** be booked and paid for in advance. All payments must be made at the time of booking.

It is a body of work through which resonance harmonics are used to heal chakra and organ imbalances, creating a powerful connection with the uplifting essence of your signature note - the song of your soul. The magic of the work enchants the mind, body and spirit into super-coherence. Transmutation is the key, and a life full of heaven is the result. £85

YOUR SUGGESTIONS

The College is always interested in hearing from members with suggestions for new presenters, or from presenters themselves who are knowledgeable in our field. If you have worked with someone who inspired you, please don't hesitate to recommend them to the College by contacting the College Services Co-ordinator through admin@collegeofpsychicstudies.co.uk If you are a presenter, please send us your proposal form (found at www.collegeofpsychicstudies.co.uk/recruitment) and - if possible - a tape or recording of a talk or workshop you have given previously.
