Welcome to the College's 2011 spring programme.

The College refurbishments are now complete and we hope that you will join us for our Members' Social Evenings and Film Nights in our new multimedia room later in the term (see the website for details in the new year). This term we are very pleased to welcome back Tony Stockwell for a rare demonstration and workshop.

The College aims to act as a beacon of light and learning for those who wish to explore the many ways in which our world continues to suggest the existence of a 'consciousness' of some sort - one that appears to extend beyond matter itself. Whilst the core of our studies retains a strong focus on the development and understanding of mediumship, psychic ability and healing, we also endeavour to embrace the growing capacity of science to explore and/or explain such phenomena.

Our experienced and highly-respected consultants provide students with a thorough and safe training environment, fostering continuous professional development in specialist areas of expertise. As well as ongoing courses, we offer a variety of workshops and lectures by experts in the field, covering a diverse range of subjects. We aim to provide something of interest to all, from the interested sceptic to the professional medium who wishes to enhance his or her particular skills.

Best Wishes,

Max Eames
College President

Making Mediumship Evidential

SPECIAL EVENT

TONY STOCKWELL

This practical day focuses on enhancing the information you receive in your mediumship and bringing through more specific details from within your spirit messages.

You will see that you often receive more information than you realise and that you can start to include communicators' names, relevant dates and specific details in your work, instead of giving very general physical descriptions of spirit communicators, random unrelated names and dates.

This workshop will push you to work with Spirit to bring greater clarity and detail in your spirit contacts. It is for those with experience in Mediumship Development and is not suitable for beginners or those with little development experience.

Tony Stockwell has demonstrated mediumship all over the UK, Europe, the USA, New Zealand and Australia. Author of four books, Walking with Angels, Psychic Case Files, Spirited and Embracing Eternity, Tony is well-known from his many television series including Psychic Academy, The Psychic Detective, Street Psychic and Psychic School, and has also appeared on The Sixth Sense, Most Haunted Live 4 and The Mystery of Body 115.

Countdown to Coherence

HAZEL COURTNEY

Who Are You? Where Do You Need to Go? How Can You Get There? In this fascinating talk, bestselling spiritual, science and health writer Hazel Courtney explains how our ultimate journey home to coherence is unfolding. Coherence denotes 'everything coming together as one', and scientists have demonstrated that if we all want to become more enlightened then it's crucial that we learn to become more coherent at every level of being. Hazel will also offer an overview of a myriad of fascinating facts she has learned from several of the world's leading scientists and experts. You will not only discover what happens after physical death, but also hear science based evidence as to the possible forms that consciousness takes after death. Discover why some scientists believe that we are biological computers operating inside a pre-programmed 'simulator' and why some even believe that our universe is little more than a hologram. Hear some fascinating new insights into time travel, multiple universes, spontaneous healing, reincarnation – as well as how it's possible in scientific terms for objects to store information – which sensitive men and women can retrieve, hundreds or even thousands of years later.

In 1998, Hazel underwent an incredible near death experience which triggered huge amounts of unusual phenomenon around her. You will also discover the science based 'G spot' for true enlightenment – and it's not the pineal gland! Furthermore, you will understand why more and more people of all ages and denominations are experiencing psychic episodes and intense spiritual awakenings and why 'miracles' will shortly become more commonplace. Hazel was an alternative health columnist with The Sunday Times.

The Human Energy Field Illustrated with Kirlian Photography

NIGEL GARION-HUTCHINGS

In this lecture Nigel will talk about the two worlds we all live in. There is the phenomenal or sensual world that we can see, hear, touch and smell; and the inner psychological invisible world that largely determines our experience of the world of the senses. We are all invisible people immersed in an invisible world that impresses itself on us in a myriad of ways. How can we benefit from the energy that surrounds us in order to realize our full potentials as human beings?

Nigel will demonstrate and discuss how Kirlian electrophotography can give an insight into how the meeting of these two worlds can influence our energy life fields. He will talk about how we can decrease our susceptibility to negative fields and improve our reception of positive ones and the impact this has on our sense of wellbeing.

Nigel Garion-Hutchings is a practicing homeopath and founder of the Association of Registered Kirlian Electrographers. He is a published author and international speaker on matters of holistic health and Kirlian electrophotography. Nigel has studied and practices transformational psychology for over 30 years and runs a busy homeopathic and transformational coaching practice.

Kabbalah: Angels, Archetypes and Astrology

MAGGY WHITEHOUSE

The great teaching angels of humanity all correspond to a particular archetype and an astrological sign. We all have both a Sun and a Moon angel as part of our life's guidance, and understanding who and what they are can help us on our spiritual path. Even more, interpreted through Kabbalistic teaching, our birth chart can reveal the nature, challenges and purpose of our Soul in this lifetime. Maggy will use the Kabbalistic Tree of Life to outline the archetypes that dwell within us all. The lecture will include guided meditations to meet your inner personalities and unravel some of the issues that may be blocking your path, plus astrological interpretations of your Soul's journey. There will also be an angelic mind-meld with the energy of the Archangel Michael who has guardianship of your incarnation's destiny.

*Rev. Maggy Whitehouse is the author of 15 books including **Total Kabbalah**, **Illustrated History of Kabbalah** and **Living Kabbalah**. She was keynote speaker at the International Conference of Kabbalah and Healing in San Francisco in October 2010. Experience of Mystery as a Doorway to Awakening

TIM FREKE

The whole purpose of spirituality is to help us let go into the 'Mystery Experience'. Modern philosopher, Tim Freke, has an unquenchable enthusiasm for diving into the 'Great Mystery'. And he wants to share the 'deep awake' state of consciousness that naturally begins to arise when we choose to acknowledge that all our ideas are no more than just that - ideas. When we see this we start to become conscious of what that the Zen masters call 'isness' – the reality that exists before our ideas about everything. Paradoxically, as Socrates taught, not-knowing is the way to 'gnosis' or true 'knowledge of what-is'. The secret to spiritual awakening is recognising we don't actually have a clue about what is really going on! As the Taoist sage Loa Tzu said 'The mystery is the doorway'.

*Tim Freke is an internationally respected authority on world spirituality and the author of many ground breaking books including Sunday Times top 10 bestseller and Daily Telegraph Book of the Year **The Jesus Mysteries**, as well as **Lucid Living** and his latest book **How Long is Now?** He's inspiring, irreverent, and down-to-earth and isn't remotely interested in setting himself up as some sort of guru. He presents seminars and stand-up philosophy performances around the world.*

Discover Our Ancestral Continuum

NATALIA O'SULLIVAN

The Ancestral Continuum will take you on a journey where you will meet your ancestors once more and find your way through the labyrinth of your own ancestral legacy. This is a journey into the future as well as the distant past, for as you explore your family tree, you begin to see yourself as just one strand in a never-ending tapestry of history and emotion, personality and achievement, tragedy and death, that will continue through your family into infinity. The invisible world of the ancestors is one that is very familiar to Natalia O'Sullivan and her work as a healer and psychic provides the foundation for this lecture. She is often the bridge of communication between her clients and their ancestors as they find a way to bring their advice, wisdom and love to their descendants.

*Natalia O'Sullivan combines modern psychological thinking with ancient wisdom. She is a healer, psychic and counsellor with 20 years experience in the Mind, Body and Spirit field, and is the founder of the Sacred Healer Retreats and The Soul Rescuers Foundation Course. She is the author of **Soul Rescuers**, **Psychic Power**, **Mind Power**, and co-author of **The Body Shop Book of Wellbeing**. She regularly writes articles on spiritual and alternative health issues and makes media appearances.*

Using Memory and Personal Experience in Psychic Mediumship

MASTERCLASS

GERRIE MARCH

In past times it was commonly believed that Psychic Mediums should be 'empty' of their own memories and experiences, before obtaining information either psychic (relating to physical, material matters) or mediumistically (spirit communication) for other people. However, many of our own memories and experiences of events, places and people (who may be in either of the two worlds) can be successfully employed during the time spent on conveying information to others, both privately and publically. A chance to experiment with this idea, using very simple exercises, with discussion and assessment.

Gerrie has worked for 25 years as a psychic medium in Great Britain and Europe, endeavouring to train as many psychic mediums as possible, to serve the needs of the growing number of interested people worldwide.

Growing Your Soul

JUDY HALL

Over 35 years spent exploring past lives, the afterlife, the interlife and the spaces in between have convinced Judy that we are not victims of our circumstances nor are we solely a product of karmic consequences. We each have a soulplan that we are following which may be overridden by soul overlays and past-their-sell-by-date soul contracts from previous lives but which ultimately leads us to grow our soul - a process that spans many lifetimes.

*Judy pioneered regression therapy and karmic astrology in England, having regressed over a thousand people to other lives and had two vivid near-death experiences in which she entered the afterlife. She uses astrology and far vision in her karmic counselling and healing practice, and leads workshops to explore other lives and the reason for incarnating. She was the CPS regression therapist for several years. Although best known for **The Crystal Bible**, Judy writes on reincarnation, karma, past lives and astrology, her book new *Soulmate Myth* examines relationships from that perspective. Her latest book is called *The Book of Why*.*

STEFAN RIPPEL

As healers, the first question we often ask ourselves when confronted with disease is, "What can I do?" The answer is simple when we understand that disease is a result of imbalance between all the components of a human "Self", i.e. the physical body, the emotions, the mind and the soul. The challenge is to recover this balance which, in the best case, will help to reconstitute a state of physical health. In this lecture Stefan will share his great experience from working with people suffering from Cancer, Multiple Sclerosis, Aids and many other serious diseases. You will come away with some tools and instructions you need to contribute actively on your path of healing. During the twenty-plus years that Stefan Rippel has worked as a healer he guided a great number of people through such a process.

*Healer Stefan Rippel was responsible for introducing energy healing to cancer care in a Viennese hospital. He is leading a series of workshops for healers and individuals, using techniques from ancient healing and mystery traditions around the world and is the author of the book **Healing Your Spine**.*

Touching the Unseen Human Energies - When Life Falls Out of Balance

SIR TOM LUCAS

This new workshop in the Touching the Unseen series explores an imaginary case-history where someone is living a life that is more or less in balance. Then something happens and life falls out of balance. If the change is life-challenging, and there is no conventional solution, then there is a problem that needs to be addressed before it spreads.

Tom will show how focusing on the art of deep relaxation, the role of the spine and the psycho-neuro-chakra-endocrine system can swiftly help people to transcend such inciting incidents and the associated fears, anger, loss, etc., and restore balance. Participants should have either had some experience with Tom or already be familiar with the basic concepts of meditation and the chakras. Suitable for both therapists and private individuals.

Please wear comfortable exercise clothing.

Tom is a healer who works at The College. He is also, somewhat uniquely, a scientist who earlier in his career worked at Cambridge and at the first quantum collider at CERN.

Awakening From the Dream

DAVID MANNING

Many Wisdom Traditions tell us that physical reality is a dream, a dream of separation. Nothing is as it seems, and there is a greater, more permanent reality awaiting our discovery in another zone of attention, a different dimension. In these other dimensions it is possible to meet guiding energies, angels, archetypes, and to remember long forgotten truths and heal deeply held issues.

In this workshop, through exploration of myth and legend, enquiry, meditation and deep relaxation, you will attempt to access these other realms for the purposes of greater healing, expanded awareness and deeper connectedness to our Infinite Nature.

David has been exploring spirituality and new consciousness for over twenty years. His association with the College began in 1989. After five years training in spiritual growth, psychic development and healing, David worked at the College for many years as a sensitive, healer and course and workshop tutor. SIR TOM LUCAS

Participants should have either attended the previous workshop or already be familiar with the basic concepts of meditation and the chakras. Please wear comfortable exercise clothing.

Working With Your Inner Archetypes - Part 1

DAVID FURLONG

Exploring the Tree and its traditional relationship to the tarot reveals the blockages which have eclipsed the link to our soul consciousness. In this workshop you can experience the dynamic new form of energy that is released by adjusting the pattern. We will first look at the archetypal patterns within the tarot cards in a radical new way that reflects their inner messages. These cards represent a spiritual initiatory journey which we need to understand and transcend. We will then look at this journey in relation to the Kabbalistic Tree of Life and the patterns that it reflects. It will highlight how the current form of the Tree expresses old Piscean energies that replicate a separation from our true spiritual self. The vibrant energies of the present time demand a new form to the tree that captures its essence and liberates our consciousness. Participants will be introduced to using the new patterns of the Tree for spiritual growth, to free the chains karmic debt and to connect directly with the wisdom of their soul consciousness. A rudimentary knowledge of the tarot and the Tree of Life would be helpful before attending.

*David has been practicing as a healer and therapist for more than 35 years, and is the author of five books including, **The Healer Within, The Keys to the Temple and Working with Earth Energies**. He sees clients for health rebalancing and runs inner development courses in the UK and abroad.*

13 March 2011 (Sunday)**Freeing the Wild Voice**

SUSAN HALE

When we find and free our authentic voice through vocal toning we move through layers of body, emotion and spirit to reconnect with the soul's voice. Sound and chant have always been a part of ritual in every human community since the earliest times. Part of this sacred tradition of song was also for the purpose of enchanting the land. Where are our voices today? Many people have forgotten to sing, or sing only with a small part of themselves, not with the full voice. Now more than ever we need to free our voices, to take our place again in the chorus of life to reanimate our bodies and our Earth. Through toning, voice exercises, chant, poetry and improvisation we will find and free our natural voices and create sonic rituals to heal ourselves and our connection with nature and the inner wilderness within.

This workshop gives an overview to the areas at your feet related to the Chakras, main nerve centres and inner organs. Crystal Grids for Earth Healing and Environmental Clearing

JUDY HALL

We can see from the floods, earthquakes, tsunamis, volcanic eruptions and pollution disasters, that our earth is disturbed and it is predicted by many people that this will increase the nearer we come to 2012. However, the earth herself has given us tools that assist in stabilizing the situation and which teach us how to turn our thoughts towards positive healing for the earth rather than envisaging her destruction.

In this workshop we will explore crystals and grids for earth healing and for clearing the environment around us. No crystal experience is necessary, just a willingness to turn your attention towards creative solutions.

The Breakthroughs and Turning Points

SIR TOM LUCAS

This new workshop in the Touching the Unseen series is designed to show just how you can finally feel and understand your own and others' life-journey, or narrative, in today's confusing me-me world, and thus discover your ultimate life-force potential. Working in pairs and as a group, you will gently try to learn who we really are. In other words, what we have learnt, how we got here and how will we get from here to our future goal. We dream in narrative, day-dream in narrative, remember, worry, hope, believe, learn, build, and make love by narrative. In this workshop we will therefore remind ourselves, in basic practical terms, why and how the ancient combinations of meditation and breathing, together with skeletal and spiritual energy healing, are so ineffably effective in revealing the turning points of our life-journeys. Participants should have either attended one of the previous workshops or already be familiar with the basic concepts of meditation and the chakras. Please wear comfortable exercise clothing.

DOE WARNES

An introduction to the meridian system of the body and how to influence the flow of energy to bring integration, balance and healing. This is an established system that has been used for thousands of years in China. After a brief overview of the meridian system, we will tune into the flow of energy or Ki' within the meridian. Once areas of easy flow, no flow and areas of blocked energy have been identified we will apply techniques to re-address the balance. We will locate the 'Bladder' meridian as it lies along the spine and has an influence on all the internal organs. Hands-on and hands-off techniques are used in this workshop.

Back issues of Light are available
from the College Reception

Each term the College presents a variety of respected and well-known psychics, mediums and healers from all over the United Kingdom and abroad. While some visit us mainly to give lectures and workshops, we are delighted that many of them also choose to make themselves available for private consultations at the College. Sessions usually last an hour. Please book early as places are limited.

Before booking a consultation, it may be helpful to reflect on **what it is you require from the session**. Do you want evidence of survival (messages from loved ones in Spirit) or spiritual/life guidance? Do you need to see a medium or a psychic, a healer or a spiritual counsellor?

Most consultants allow their **sessions to be recorded**. Sitters are welcome to bring their own recording device. The College no longer provides recording equipment.

It is advisable to wait **six months** from bereavement before booking an appointment with a medium.

It is the aim of the College to demonstrate sensitivity, mediumship and trance of the highest standard. All our consultants have trained for many years and are vetted on a regular basis to ensure standards are maintained. However, please be aware that a consultation is a spontaneous process and the **outcome cannot be guaranteed**. For example, it may not be possible to make contact with a specific person in Spirit but others may come through with messages for the sitter. On balance, a good reading should help you achieve clarity and insight into your life situation, and enable you to move forward with confidence, empowered to make your own decisions. Most sessions last an hour.

For those consulting a medium for the first time we would ask that you come to the sitting with an open mind and a willingness to be receptive. More information can be found in our leaflet 'Guidelines on Consulting a Sensitive/Medium', available from Reception.

Your choice of sensitive will largely depend on your needs and so it is recommended that you focus on these when reading the descriptions of our consultants on the following pages.
