The Soul's Journey

SARAH TYLER-WALTERS

Have you ever wondered what your Soul thinks or feels, or if these are even things that it does? Tonight, through the trance mediumship of Sarah, Spirit will talk about the Soul from their perspective and give voice to its reasoning and choices; it is after all here by design. Your Soul is the seat of your power and the knowing of your purpose and potential. So few of us engage with the Soul or even allow it to stay in control. The Soul has all the tools it needs and the power to manifest all we need, if we allow it. You are on an amazing journey, let Spirit help you to remember that.

Sarah is a trance medium, teacher and healer (CCHA). She trained at The London Spiritualist Mission and the College, and works as a trance medium at the College and around the country, giving trance readings and demonstrations. Her aim as a teacher is to assist students in finding their own paths and opening doors for better communication with spirit.

Detecting and Releasing Intrusive Energies

ANDY TOMLINSON AND REENA KUMARASINGHAM

We are all energy – dense energy that we call the 'physical body' and lighter energy around us. In our energy field we can accumulate intrusive energy. This can be a disturbing thought, a negative emotion projected by other people or a discarnate spirit that is not attached to a physical body. This is often the case with a sudden death in accidents, battles or war. These spirits can attach to people and effect their energy levels, amplify emotions and introduce unwanted thoughts. However, it is possible to talk to the spirit attachments, through the host, and then go on to release it. Done with love and compassion these attachments are often unaware that their presence has a detrimental effect on the host. In this action packed lecture you will learn how to protect yourself and your loved ones from intrusive energy.

A demonstration showing how to clear spirit attachments from a host will also be shown.

Andy is a psychotherapist and past life explorer, and director of training at the Past Life Regression Academy. He is the author of the books, Healing the Eternal Soul and Exploring the Eternal Soul which cover his personal research working with past lives. He is the editor of Transforming the Eternal Soul, a new book explaining the different ways regression helps people overcome personal problems. www.regressionacademy.com

Reena is a Psychology graduate, Hypnotherapist, NLP practitioner and Life between Lives and Regression Therapist. She is the director of Divine Aspect, that has a vision of totally empowering people as they journey towards embracing and honouring their own authentic being through life coaching, regression therapy and hypnotherapy. www.divineaspect.com

Out of Body Experiences (OBE) and the Benefits of Controlling Them

PATRICIA SOUSA

The OBE is a unique experience in which you find yourself awake and conscious outside of the physical body, using a more subtle, nonphysical, kind of 'astral' body. The OBE is a means by which you can explore the nonphysical dimensions that overlap and interact with the physical dimension, communicate with people who are no longer alive in the physical sense, and develop your psychic abilities. Outside the body, we are also more easily able to access the memories of past lives and periods between lives. People often reprioritize their lives when they start having OBE's as they realize that the karmic consequences of their actions and inactions extend beyond the current physical life. Patricia Sousa draws on almost twenty years of experience and research with OBEs to describe what happens and how controlling the experience can benefit us.

Instructor, Researcher and Director of the International Academy of Consciousness (IAC) UK, Patricia Sousa started studying Scientology to understand her own experiences with parapsychism and paranormal phenomena. Today, after more than nineteen years of teaching and research, Patricia is an international lecturer who speaks at conferences, exhibitions and public events and been interviewed around the world. www.iacworld.org

Becky has been a teacher, speaker and workshop leader for many years in the field of spirituality, intuition and consciousness. she is the author of three books and has written for many magazines. The Angels of Atlantis Oracle Cards

STEWART PEARCE

This is a unique opportunity to receive love and wisdom from an Angelic Oracle given to Stewart by a communion of twelve light beings in 1987. The Angels are emissaries from the Source, and at this time of vast personal and planetary transition, provide us with twelve archetypal keys to transform our lives forever. The Oracle itself consists of forty-four beautifully illustrated Angelic Orb Icons, drawn from the work of the archetypal keys, and designed to provide evocative healing experiences for the mind, body and spirit. The Angels well know that experiencing the current Solar flashes, Galactic realignments and Earth pole shifts can be challenging, and so they have breathed into existence eternal maxims formed from their own vector of plasmic force.

Stewart Pearce is a world renowned Voice Coach with a career spanning three decades, and was Head of Voice at the Webber Douglas Academy from 1980-1997 and Master of Voice at Shakespeare's Globe from 1998-2008. A Sound Healer, Seer and Angel Medium, he has created a temple of sound healing entitled The Alchemy of Voice, teaching the intelligence and compassion of the heart through the breath and song of the soul. www.thealchemyofvoice.com

Mystical Experiences at the End of Life

BRENDAN MOONEY

Dying, death and bereavement are significant life events. Throughout history, religious traditions have provided narratives about their meaning. Science and scientists, have provided a counter-narrative. Yet other informed voices have entered the discussion, including the modern hospice and palliative care movement and the disciplines of anthropology, medicine and psychology. Dying has become an observed phenomenon. Within the dying process itself, patients often experience profound altered states of consciousness, giving rise to powerful spiritual, mystical and transformative experiences. These phenomena affect both the dying person and their carers, the latter sometimes participating directly in the experience. Drawing from his direct experiences with the dying and bereaved, and from the wisdom of eastern, western and shamanic spiritual traditions, Brendan will discuss the profound implications these mystical experiences have for how we understand death and dying, what happens beyond death, and how we can use these insights to inform and enrich the lives we live now.

Brendan previously trained as a social worker, his intuition assisted him in the roles of family and mental health practitioner and latterly, in the field of hospice, palliative care & bereavement care. Having trained in advanced psychic development, shamanic healing practices and professional counselor training, he is an intuitive counselor and life coach. www.brendanmooney.co.uk

Consciousness, Synchronicity and Science

DAVID LORIMER

Telepathy and other forms of ESP suggest that the modern scientific understanding of consciousness – based on the assumption that the brain produces consciousness – is radically incomplete. This lecture will explore how our minds are both interconnected and interactive and the way in which we are all in fact embedded in and can act on the Universal Mind or Cosmic Consciousness. We can co-create our future by consciously directing emotionally charged creative thought to the Universal Mind and by maintaining an optimistic attitude. The lecture will also consider the meaning and significance of synchronicity and the mechanics of the law of attraction.

David Lorimer, MA, PGCE, FRSA is a writer, lecturer and editor who is Programme Director of the Scientific and Medical Network, President of Wrekin Trust and Vice-President of the Swedenborg Society. A teacher of philosophy and modern languages at Winchester College, he is the author and editor of over a dozen books, most recently Science, Consciousness and Ultimate Reality, Radical Prince and A New Renaissance. www.practicalwisdom.org.uk

Awakening the Levels of Consciousness

DAVID HEY

This event is an active exploration of the different levels of consciousness – ordinary consciousness, aware consciousness and pure consciousness. The beneficial impact of meditation, psychotherapy and other techniques can be deepened by these new understandings of awareness and the flow of consciousness itself. Our level of self-awareness tends to determine the energy field in which we live. At the highest level of consciousness, we tend to generate a field of connectedness, inclusion and fulfilment that is called the All-and-Everything. At the most basic level of ordinary consciousness, we are aware only of the content of our experience. This level tends to generate the field of Flatland, a field characterized by conflict and alienation. As well as guided, in-depth explorations of consciousness, this evening will include a brief presentation of David's most recent book, *Travels in Consciousness*.

David, author of The 9 Dimensions of the Soul, has worked extensively in the fields of personal development, communications, couple counseling and stress reduction. www.davidhey.com

Masterclass ~ Psychic Mediumship Training

GERRIE MARCH

The focus during this Masterclass is on building psychic and mediumistic skills. It is within human nature to be psychic and mediumistic. Information from psychics relates to the physical material world, but not all psychics are mediumistic and do not convey information from the next world, the non-material world. Most mediums, who do convey information from the deceased, are also psychic and may offer a combination of both skills. Both worlds intermingle and overlap, so we will experiment through simple exercises and examples, to discover how this can happen. All are welcome to participate.

Gerrie March has worked for 25 years as a psychic medium in Great Britain and Europe, endeavouring to train as many psychic mediums as possible, to serve the needs of the growing number of interested people worldwide.

Holistic Sound as a Healing Force

JAMES D'ANGELO

The very fabric of the universe is rooted in vibration. All things, visible and invisible, have their particular frequency. On this basis we can describe stress, illness and disease as a mis-tuning of the human instrument. Its frequencies have gone out of tune. Through the principle of resonance and sympathetic vibration, it is possible to restore our mental and physical bodies to their rightful frequencies and bring ourselves into alignment with our true Self. Tonight James will demonstrate how holistic sound can bring about this kind of transformation through the potential of using the resonance of the human voice. The audience will have the opportunity to make vocal sounds that are sympathetic to the chakras, central to our soul life and to experience how such sounds drawn within form the basis of a healing meditation.

James D'Angelo, PhD has conducting his courses on empowering people to heal themselves through sound since 1994. He has been an invited speaker/workshop leader at the Findhorn Foundation, Caduceus conferences on sound, the Healing Sounds Festival in the UK the Sound Colloquiums and the International Sound Healing conferences in the USA. A music educator, published composer and all-round musician, James is the author of The Healing Power of the Human Voice and the forthcoming The Sacred Alphabet produced by Inner Tradition Books. www.soundspirit.co.uk

The Power of Universal Energy

DOUGLAS BALLARD

Douglas Ballard will show, through lively audience participation, how he not only can apply universal energy with the intention of healing the human body, but can simultaneously offer guidance to others in the audience by giving readings. He will reveal how he works with an intelligent source of universal energy to bring hope and improve the lives of people from all walks of life. His abilities have helped to bring relief to many who have suffered from long-term physical pain and unresponsive illnesses to those who are in need of reassurance and understanding on the way their lives are progressing and may do so in the years to come.

Creating Space for Personal Empowerment

DAVINA MACKAIL

Human beings have always been deeply connected to their environment. Our homes are living, breathing entities that can support or hinder our development. Energy doesn't disappear it just changes form – arguments and negative emotions; worry and illness can soak into the fabric of our homes. Over time this stuck, stagnant energy can adversely affect our lives. We can also be influenced by spirit energies, stressed earth energies and the history of the land we live upon. Join me to learn what these different energies are, how to recognise them and how to safely cleanse and energise your home so that it works with you rather than against you. In addition we'll explore psychic protection, how to fill your home with positive intent and personal grounding techniques. *Davina, BA Hons, RGN, DFSNI, is a master NLP, hypnosis and line therapy. She has studied astrology, numerology and is professionally trained in feng shui, geomancy, space clearing and shamanic healing. Touching the Unseen Human Energies ~ Know Thyself

SIRTOM LUCAS

Working together, and in pairs, you will get a clear overview and understanding of how knowledge of the subtle connections between your psychic timelines, chakras and consciousness, and your using the classic tools of meditation, the I Ching (the Chinese Book of Changes), and Spirit-directed healing, will help you to master the forthcoming emotional and biological stresses of your life. A free copy of Tom's diagrammatic work-book *Touching the Unseen in Ten Minutes* will be available for any person who has not already acquired one.

Tom is a healer who works at the College. He is also, somewhat uniquely, a scientist who earlier in his career worked at Cambridge and at the first quantum collider in CERN.

They vary from the obvious ones like Jesus, Mary, Mohammed and Buddha to saints, gods, goddesses, devas and deities from all religions and cultures. They can be called upon to assist us in all the issues that we deal with in our daily life e.g. finding a soul mate, weight management, work, enlightenment, creativity and peace both global and personal. They can come to many people at once and can become a friend to you. Most of you will have at least one Ascended Master as a spirit guide – possibly more. We will connect with Ascended Masters who will assist you with issues that you have within your life, your spiritual growth and global issues like world peace.

Connecting to Archangel Metatron

AMANDA ROBERTS

Archangel Metatron is an exceptional archangel: he walked the Earth as the prophet Enoch and documented events occurring at that time. Mythically it is said he was transformed into an archangel by God to keep the records of all of our deeds. He holds the link between us and the Creator as he was human and can therefore assist us with our spiritual growth and understanding. The angel of reflection, Metatron offers the soul the chance to understand and know its own divinity and helps us to connect to our own truth and higher self. We will explore all this within this workshop and also ask Metatron to assist with chakra and aura clearing. He is the architect of sacred geometry and we will use Metatron's cube to assist us with clearing and healing. Metatron also oversees psychic children and can help parents and teachers support them.

Trance Mediumship ~ Letting go of Ego and Self

SARAH TYLER-WALTERS

Working with Spirit in the altered state is more than just altering your brain patterns, it also requires moving your Self out of the way. But what do we mean by Self? Self means your personality, conscious and sub-conscious mind and ego; removing all this is not an easy task. Knowing yourself is vital if you are going to successfully move to one side. Trance Mediumship is a delicate balance of Spirit moving in to communicate and you moving out to allow that to happen. However, your ego often rejects that idea and hangs around or can even deliberately assert itself and project an alter ego. In this workshop you will work with your ego to better understand how it works and gently encourage it to move aside and build trust in the communication as being Spirit rather than you. Previous experience of trance required. Due to nature of the day there are a limited number of places.

The Alchemy of Voice ~ Stage 6 ~ Wings of Light

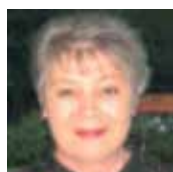

STEWART PEARCE

This multi-dimensional workshop will assist the ascending sound waves of the Eighth Chakra, the portal for cosmic intelligence. When soul immersion through sound is drawn deep into our physical membrane, when we are removed from past pains, the Eighth Chakra creates cascading currents of light that appear to shine in the Aura like wings, and so we pulse with the universal heart, and align with unity consciousness. The workshop objective is to accelerate the totality of consciousness by aligning us with the Angelic concords.

Somatic Intuition

BECKY WALSH

The body is more than a tool by which we move through life; it is intelligent! Your body is a walking radio capable of picking up intuitive information. Your energy centres and auric field are sensitive to the sounds of the world's energy all around you. The physical body acts as a store house, holding information in its cells such as our DNA. All these various parts of information go together to make 'you'. All have their own sound, which becomes your unique physical theme tune and can be read intuitively by others and understood by you. The body also stores emotional memory, the echoes of things we didn't allow ourselves to feel or deal with at the time. All of this also has a sound quality to it, you might not be able to hear it, but you can feel it when you are not in harmony with yourself. When we don't listen to the information stored in the body it can turn into a persistent physical problem. So connecting with your body can open up many doors to intuitive knowing of yourself and others. This workshop is practical with safe movement and interaction.

STEWART PEARCE

This workshop will explore sonic codes that resonate a refined super-coherence into our lives. These codes are crucial at this time of planetary transformation, as we move from the love of power to the power of love, and are kept sacred by the wisdom keepers of most indigenous traditions, who believe that the heart has a secret chamber speaking a language of oneness to all people. As ancient as the rocks and wind, this mode of communication creates a fusion between mind and body, and of thought and feeling. Come and experience these inspirational leading edge Heart Tools.

Intuitive Drama

BECKY WALSH

Theatre has always been a powerful tool for transformation. An audience can change its perceptions about self and society through performance. In this workshop you will learn a form of intuitive improv theatre, where the actors tune into the story told by an audience member. They then replay the story intuitively bringing out more insight that the teller has themselves. Intuition also plays a part during performance as the cast must tune into their fellow actors to seamlessly move as one. This workshop is for people who want to find a physically embodied somatic way to develop intuition and for people who enjoy performing. Based on Playback theatre, no experience necessary, just a willingness to have fun and move.

Personal Alchemy

ANA ISABEL

Fear can make us rigid, defensive and limit the possibilities that we allow ourselves. This is especially difficult as some of our fears are unconscious but still hold influence over the decisions that we make and the way we behave in our relationships. In this workshop we will look at the birth chart to find our fears. We will then see their origin and the way in which they are stopping us from achieving inner peace and personal success. Finally we will consider how to best move forward. This is the key to transmuting a base metal into personal gold. No previous knowledge of Astrology is necessary.

Ana is an astrologer with over 10 years experience of producing charts and delivering teaching programmes. Ana broadcasts on BBC radio and hosts an astrology programme, Lightways on the internet and radio station: My Spirit Radio www.myspiritradio.com. Ana is currently exploring combining drama therapy and astrology to help unlock repressed aspects of our personality. www.lifeastrologer.com

The Alchemy of Voice ~ Stage 9 ~ Rituals of Atlantis

STEWART PEARCE

During the civilization of Atlantis the people lived an advanced spiritual intelligence directed by ritual devotions. These experiences kindled wisdom through the fire of experience, and accelerated the light body of each person, within the sacred geometry of their Merkabah. During this unique workshop we will engage in two major rituals to achieve this: Heavens Gate and Venus Vision, achieved through Pranic Enchantments and Sona Songs. The rituals are designed to open fifth-dimensionality, and will hugely expand awareness of who you are, connected to higher levels of consciousness, and restored within the memory of infinite possibility.

Processing the Backlog ~ Awakening to Freedom

DAVID MANNING

As Human Beings, we can be full of the imprints of our past experience. Our personal history and belief system, past life catalogue, genetic blueprint, along with all of our experiences in other dimensions and galaxies, all can leave their mark in our psyche, and energy field. At this time, we may

be well served by letting go of much of the accumulated debris and data, so that we become light, free, and available to the amazing influx of grace that is currently available in our collective journey. On this day we will explore some of the constructs that keep us bound and limited. Working with simple techniques, processes and sounds, prayers, meditations and invocations we will invite freedom from our history, so that we may more fully occupy our bodies and our lives with joy harmony and peace, moving into our potential more easily, speedily and gracefully.

David has been exploring spirituality and new consciousness for over 20 years. His association with the College began in 1989. After five years of training in spiritual growth, psychic development and healing, David worked at the College for many years as a sensitive, healer, course and workshop tutor. The Healing Power of Vocal Sound

JAMES D'ANGELO

The human instrument is composed of vibrations which, due stress, negative emotions and a dispersed mind, go out of tune. The object of sound healing is to draw these frequencies closer to their optimum point and in so doing re-tune the person towards harmony and contentment. The best instrument for this is the internal vibrations of our own voice. James will focus this workshop on a variety of ways of toning both East and West the energy centres known as the chakras, the core of our soul life. Supplementary to these practices are natural sound rituals such as laughter and humming, mantra, chants and specialized Taoist sounds for the organs of the body. Some of the work is complemented by simple movements similar to Tai Chi which encourage and direct the sounds. Tuning forks are introduced to stimulate the cells and nervous system. No experience required, only the deep intent for transformation.

Become a Spiritual Writer

STEVE NOBEL

"When the writer is ready the Muse will appear." The spiritual writer has been at the heart of every spiritual tradition as messenger, recorder, channeller, inspirer and connector. The spiritual writer has also been the heretic, the one stretching the rigid bounds of the prevailing system of thought. Although at times this has been a dangerous profession nowadays the biggest block to the spiritual writer comes not from external forces but from internalised ones. The spiritual writer knows how to: still and raise their consciousness, be self-reflective, be present to the inspiration in the world, work with paradox, write to address a real need in the world, and write in a whole brain way. This workshop will show you how to: find your unique way to the well of inspiration, prepare to raise your consciousness to release and channel your creative muse, befriend the inner critic, structure the flow of your writing, decide on the right publishing option (which includes approaching a publisher with a book non-fiction proposal). Ideal for all levels of writing experience.

Steve Nobel is an author of three books on spirituality, his latest being The Enlightenment of Work. He is currently writing his fourth Become a (Spiritual) Writer. Steve is a personal and business coach and a director of Alternatives based in St. James's Church, Piccadilly. www.stevenobel.com

Consultations

It is the aim of the College to demonstrate sensitivity, mediumship and trance of the highest standard. All our consultants have trained for many years and are vetted on a regular basis to ensure standards are maintained. However, please be aware that a consultation is a spontaneous process and the outcome cannot be guaranteed. For example, it may not be possible to make contact with a specific person in Spirit but others may come through with messages for the sitter. On balance, a good reading should help you achieve clarity and insight into your life situation, and enable you to move forward with confidence, empowered to make your own decisions. Sessions last for 50 mins.

Each term the College presents a variety of respected and well-known psychics, mediums and healers from all over the United Kingdom and abroad. While some visit us mainly to give lectures and workshops, we are delighted that many of them also choose to make themselves available for private consultations at the College. Sessions usually last 55mins. Please book early as places are limited.

Before booking a consultation, it may be helpful to reflect on what it is you require from the session. Do you want evidence of survival (messages from loved ones in Spirit) or spiritual/life guidance? Do you need to see a medium or a psychic, a healer or a spiritual counsellor?

Most consultants allow their sessions to be recorded. Sitters are welcome to bring their own recording device. The College no longer provides recording equipment.

For those consulting a medium for the first time we would ask that you come to the sitting with an open mind and a willingness to be receptive. More information can be found in our leaflet 'Guidelines on Consulting a Sensitive/Medium', available from Reception.

It is advisable to wait six months from bereavement before booking an appointment with a medium.

All consultations payments must be made at the time of booking.
