www.collegeofpsychicstudies.co.uk

Welcome to the College's 2011 summer programme. This term highlights the growth of the soul, and we are delighted to host Ian Lawton's monthly discussion group workshops, as well as presenting short courses on a similar theme.

The College aims to act as a beacon of light and learning for those who wish to explore the many ways in which our world continues to suggest the existence of a 'consciousness' of some sort – one that appears to extend beyond matter itself. Whilst the core of our studies retains a strong focus on the development and understanding of mediumship, psychic ability and healing, we also endeavour to embrace wider areas of interest including the growing capacity of science to provide a broader context to such phenomena within the consciousness movement.

Our experienced and highly-respected freelance consultants provide students with a thorough and safe training environment, fostering continuing professional development in specialist areas of expertise. As well as ongoing courses, we offer a variety of workshops and lectures by experts in the field, covering a diverse range of subjects. We aim to provide something of interest to all, from the interested sceptic to those who long ago embarked on an extended journey of self-discovery through our work at the College.

Best Wishes,

Max Eames
College President

Life Alignment

SPECIAL EVENT

JEFF LEVIN

Internationally renowned healer and channel, Jeff Levin, will talk about the Life Alignment vibrational healing system that encompasses the subtle and physical bodies, our home, business or organization. He will cover reasons why you cannot heal the body independently from its environment. Jeff will demonstrate a technique for accessing the body's bio-computer to identify self-limiting beliefs and negative programming, and where precisely congested energy is held in the body. Come and witness how, when working at higher dimensions of reality, trauma and unresolved experiences can be released from cellular memory in seconds using Life Alignment's subtle energy Vortex cards.

Since 1991, Jeff Levin, a former architect and naturopath, has travelled the world lecturing and teaching Life Alignment. The story of this channelled knowledge can be found in Life Alignment: Heal Your Life and Discover Your Soul's True Purpose by Philippa Lubbock (Watkins Publishing, 2010).

Our Eternal Souls

GWEN TATE LECTURE

ANDY TOMLINSON and REENA KUMARASINGHAM

Awakening our souls is the foremost challenge of our time in dealing with a range of pressing problems that threaten humanity and allowing us to move to new levels of consciousness. We, as souls, have chosen to be here at this important time – to experience these changes, whilst learning lessons and gaining experience. Often, traumas from our past-lives and distressing childhood experiences can create unconscious deep-seated fears that keep the soul in a state of mental inertia, which in turn curtails our ability to be truly happy and fulfilled. Those caught in such a state of mind can also attract to themselves earthbound spirits that are similarly trapped which reinforces the situation. This talk will explore the methods that can be used to liberate these frozen aspects of our psyche and the steps necessary for releasing 'earthbound' spirits both at an individual as well as collective level.

Andy Tomlinson is a psychotherapist and past life explorer, and the director of training for the Past Life Regression Academy. He is the author of the books, Healing the Eternal Soul and Exploring the Eternal Soul which cover his personal research working with past lives and soul memories between lives. He is the editor of Transforming the Eternal Soul, a new book explaining the different ways regression helps people overcome personal problems.

Reena Kumarasingham is a Psychology graduate, Hypnotherapist, NLP practitioner and Life between Lives and Regression Therapist. She is the director of Divine Aspect that has a vision of totally empowering people as they journey towards embracing and honouring their own authentic being through life coaching, regression therapy and hypnotherapy.

Grow Your Soul - Workshops

IAN LAWTON

The Evidence Group discussion about the evidence for a spiritual worldview, including near-death experience cases, those of children who remember past lives, and the stronger cases of adult recall. The Theory and Practice Group discussion about the interlife experience, planning your life, personal responsibility and free will, experience and growth, the holographic soul and what all this means for how you approach your everyday life. Meet Your Spirit Guide and Experience a Past Life Guided meditation to take you to a special place where you can meet your spirit guide and visit a safe past life.

Ian Lawton is an internationally renowned spiritual philosopher, the architect of Rational Spirituality and the idea of the holographic soul, the author of the various "Books of the Soul" and a current, past and between life regression therapist. These workshops make use of his rare if not unique combination of theoretical research, and practical spiritual advice and regression training. They are also designed to be as interactive as possible, so we have group discussions rather than formal talks or lectures, coupled with guided meditations.

Angels of Atlantis - Oracle Cards

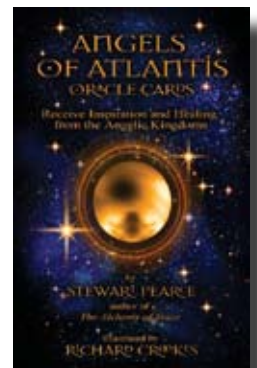

STEWART PEARCE

This is a unique opportunity to receive love and wisdom from an Angelic Oracle given to Stewart by a communion of twelve light beings in 1987. The Angels are emissaries from the Source, and at this time of vast personal and planetary transition, provide us with twelve archetypal keys to transform our lives forever. The Oracle itself consists of forty-four beautifully illustrated Angelic Orb Icons, drawn from the work of the archetypal keys, and designed to provide evocative healing experiences for the mind, body and spirit. The Angels well know that experiencing the current Earth Pole shifts can be challenging, and so they have breathed into existence eternal maxims formed from their own fire vectors.

The Quest of the Soul

MAGGY WHITEHOUSE

Each soul is individual, formed over many lives with both strengths and weaknesses. For most of us in the modern world, the soul's call is over-ruled by the ego and the requirements of everyday life. Poverty, both physical and emotional, begins through neglect of the call of the soul's quest. This talk will help you to understand the nature and calling of your own soul and the astrological blueprint that is your default position. It will give you the tools you need to clear the internal blockages that may have prevented you from understanding the beauty and truth within. It will also include an internal journey to help you set out on your quest for your own Holy Grail.

Maggy Whitehouse is a mystic for the modern world. She is the author of Living Kabbalah, Total Kabbalah, The Spiritual Laws of Prosperity and The Marriage of Jesus. Maggy has taught spiritual development and prosperity consciousness in the UK, Europe and USA for more than a decade. NIGEL PEACE

Have you ever wondered where on earth your life is going? Are you trying to live a spiritual life but feel lost? The gurus and teachers tell us that we are 'guided' – but how can we understand this guidance. Nigel Peace will describe some of the extraordinary prophetic dreams and synchronicities he has experienced on an almost everyday basis. Some of these phenomena seem incredible, but Nigel will present sound and documented evidence of them, and argue that every one of us can receive guidance in these ways. This lecture will ask profound questions about the true nature of the human consciousness.

Nigel is an author, mathematics teacher and a Reiki Master living in North London. He has degrees in science and philosophy, and has pursued a lifelong interest in parapsychology. Nigel is the author of 5P1R1T R3V3L4T10N5 and 51GN5 OF L1F3.

The Contagious Power of Thinking

DAVID HAMILTON

David will share all the new scientific evidence showing how emotions are contagious and spread from person to person. Through the phenomenon of 'emotional contagion', about 25% of most people's happiness is actually caused by the mood of their friends and social contacts. We also infect others with sadness, and joy. In fact, just about every state is contagious. We even transmit our moods to infants and children. Using the new evidence, David will explain how we live in an interconnected world and how a small group of people really can change the world.

David has a PhD in organic chemistry and spent 4 years as a scientist with one of the world's largest pharmaceutical companies. Now author of many books, including Why Kindness is Good For You and The Contagious Power of Thinking, David travels the UK and abroad giving talks and running workshops.

The Twelve Tones

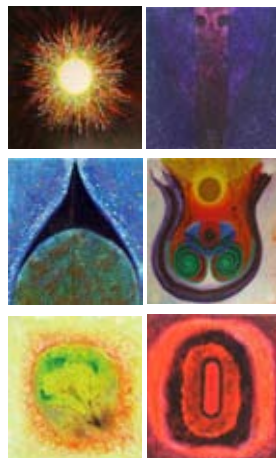

DANIEL STONE

In this inspiring evening, twelve oil paintings are projected as images onto a screen. With each painting is a poem and live music. The music consists of drum, song, flute, bells, and percussion. On the stage the musician moves around the medicine wheel - the balance of air, fire, earth and water in the four directions. The performance lasts for 90 minutes. The Twelve tones talk of frequencies, colours, sounds. It is a dance of unity. Twelve, in sacred geometry, is the number of the seed of the future dream, the number of birth; it is the doorway through times, spaces, dimensions. In the history of the crystal skulls there are twelve skulls who dream the twelve universal vibrations: the crystal skull is in your skull, so we are creating the dreamspace to open and dream the change of time.

Daniel Stone is a painter and musician who lives in the desert of Mexico, where these paintings were produced. He has exhibited and performed and held courses worldwide and is the author of The Dreamer who Dreams You.

The time has come for mankind to shift the entire paradigm of human consciousness from limitation to freedom. The vision of a stable and harmonious human presence upon this planet is not one we can afford to pass up. This talk will explore the options that are available to mankind at this time of increased challenge and examine the question: What if the key to meeting those challenges is actually an undiscovered part of our hardwiring as human beings? We will begin by comparing scientific discoveries with the historical contribution of religion and philosophy. Using recent scientific research on heart-brain communication, we can start to see how the human being is actually hardwired for harmony. We will end the session by asking the following questions: What does the future world we desire require of us now? And what are the most viable options for achieving this on an individual, societal and global level?

Jeddah Mali has studied with some of the world's highest ranking spiritual masters and has experienced a series of awakenings - leading to a precise understanding of the structure, nature and working order of human consciousness, and its ultimate purpose. She practices as an international mentor and consultant, teaching others how to find, explore, and realise, their own incredible potential. Jeddah has a masterful way of communicating that brings clarity and humour to complex subjects.

Automatic Writing - A Tool for Self Development

SARAH TYLER-WALTERS

This workshop explores how to receive wisdom from the subconscious mind, the Soul and the higher Self, via the written word. We all know we have a purpose, a reason for being here. Connecting to that purpose, and knowing what it is, is often hard or challenging. Automatic writing is a very old form of communicating that is as relevant today as it was in the past. We can seek answers, guidance and direction from many sources. Many of us find writing easier than speaking and so allow the communication to flow unhindered. You will explore your connection to yourself while learning how to receive guidance through automatic writing. Please bring pen and paper, and a photograph of yourself as a child.

ANDIE HUDSON

The aim of this workshop is to enable you to benefit from the natural power of crystals by integrating them into your daily life. You will be introduced to a 'starter pack' collection of crystals and a variety of uses for them, e.g. to clear toxic waste from food stuffs wrapped in plastics; to help house plants thrive, and garden plants survive better in cold winters; to enhance concentration, relaxation, energy boost and general health. The workshop also introduces the history and mystical elements of the minerals and includes an individual dowsing to find the best personal crystals for your life style, as well as a crystal reading for every participant. The workshop closes with a Crystal Meditation to help you relax and integrate the information given to you individually and as a group. This workshop is suitable for therapists, healers and anyone with a genuine interest in the mineral kingdom.

Entering the Way of Mindfulness

MARIANNE BRADY and TERRY PILCHICK

Mindfulness is a path to becoming completely awake and present, fully and deliberately alive, moment by moment to what is happening within us and around us. Mindfulness meditation helps us to wake up and stop living in 'automatic pilot' mode. It frees us from the compulsive, reactive patterns of our minds, and allows us to experience life with pure clarity and depth. To be mindful is to live simply and directly with what is. Mindfulness meditation (MBSR) is widely recognised as an effective tool for working with stress and resolving inner conflicts - but it can be much more than that: a doorway to the timeless reality to be discovered in every breath we take. The morning workshop will introduce you to a range of mindfulness practices that you can immediately put to use in your everyday life.

Terry Pilchick has been teaching meditation and mindfulness since the 1970's, and works as a meditation teacher, mentor and life-coach in the UK and abroad.

Marianne Brady has been teaching meditation and mindfulness, chanting and voice work for the last twenty years. Marianne and Terry are founding members of Mindfulness-West.

What is Your Dream?

DANIEL STONE

What do you think of when you read this question? Do you think, 'What do I really want to do with my life?' Do you think, 'What do I dream at night?' Both questions are pertinent. In this workshop, we open up to life as dream, that you are both dreaming and being dreamed, and what you are looking to do is to become more conscious in the dream of your life. More than that, the planet earth is also dreaming and being dreamed; the universe is also dreaming and being dreamed. So how do we bring together the dream of your life, the dream of the earth, and the dream of the universe? The dreaming body communicates to us in many ways and it is our task to learn to read our own messages to ourselves. We open the dreaming body using sound, meditation, subtle movement and our own creativity.

Meet the Angels of the Golden Age and Find Out Why 2012 is Important

KATHLEEN PEPPER

Myths and legends from all over the world refer to a Golden Age when all life was peaceful and harmonious and angels and people worked together. Why is 2012 so important? When people and angels work together again, there will be a new Golden Age. Touching the Unseen Human Energies - When Life Falls Out of Balance

SIR TOM LUCAS

This new workshop in the Touching the Unseen series explores an imaginary case-history where someone is living a life that is more or less in balance. Then something happens and life falls out of balance. If the change is life-challenging, and there is no conventional solution, then there is a problem that needs to be addressed before it spreads. Tom will show how focusing on the art of deep relaxation, the role of the spine and the psycho-neuro-chakra-endocrine system can swiftly help people to transcend such inciting incidents and the associated fears, anger, loss, etc., and restore balance. Participants should have either had some experience with Tom or already be familiar with the basic concepts of meditation and the chakras. Suitable for both therapists and private individuals. Please wear comfortable exercise clothing.

Tom is a healer who works at the College. He is also, somewhat uniquely, a scientist who earlier in his career worked at Cambridge and at the first quantum collider at CERN.

The Quest of the Soul

MAGGY WHITEHOUSE

We are each a living cell within the body and soul of a living Universe. Our soul is unique, formed through many lifetimes but, increasingly in the modern world, its call to wholeness is over-ruled by the complexities of social customs, family and the trained responses of ego. All poverty, physical, emotional and spiritual, is first experienced in the soul. It begins through neglect of the call of the soul's quest. The ego's job is to keep us alive and safe; it is not there to help us grow spiritually. It will even masquerade as our heart — helping others from a place of lack in order to feel better about ourselves - to keep us comfortable without growing. Jewish mysticism teaches that the soul is your vessel for receiving and passing on Divine Grace; it is the Holy Grail. This workshop will give you the tools and insight needed to recognise and transmute the internal blockages that lead to toxic giving, emotional and financial issues and a feeling of loss and disconnection. The day includes an interior journey to find your own Holy Grail.

Most of us would like to enjoy a deep and loving relationship. Yet this kind of connection for many of us is difficult, if not impossible, to hold; we simply don't know how to connect without the ego, our inner fear mechanism, getting in the way. Our connection to others can be our greatest spiritual tool to deal with our issues, beat our fears and open up to being the best of who we can be, by allowing ourselves to be seen and loved fully and giving that gift to our partners. This isn't a small 'happily ever after' undertaking. This is allowing relationship to be a tool of growth and enlightenment. This workshop is experimental; its purpose is to find the blocks that you have built against living with the full embodiment of love in your life.

Touching the Unseen Human Energies - Body-Mind-Spirit Self-Healing

SIR TOM LUCAS

In this new workshop in the 'Touching the Unseen' series you will learn how an unresolved life-challenging event (the inciting incident), such as the loss of a loved one or a loved situation, can launch someone into a saga of chronic imbalance and resistant problems. Working singly or in pairs you will remind yourselves of the intrinsic power of the human body-mind-spirit to heal itself and find ultimate peace and wellness through the process of 'relax and do nothing', using the simple ways of pranic meditation and spine energetics. As part of this process you will also learn how to precisely intuit the characteristics of unresolved events and how to stream energy to unblock and rebalance the major joints, chakras and acupoints of the meridian-nadi system both for oneself or for others, to thus restore order out of chaos. Participants should have either attended the previous workshop or already be familiar with the basic concepts of meditation and the chakras. Please wear comfortable exercise clothing.

Holistic Approaches to Illness and Medication

DAVID MANNING

It can be easy to feel like a failure when dealing with illness, dis-ease and medication. There can be subtle but powerful guilt around "having created it" and needing medication at all, or not being able to love or heal the condition away. Spend a day exploring possibilities and opportunities for growth, change and deepening presented by dis-eases and medical approaches to dealing with them. Investigation, invitation, dropping resistance, acceptance, gratitude and other methods can be employed to blur the boundaries between illness and health, allopathic and complimentary approaches. There are deep, rich veins of wisdom to be explored, even in our most challenging of circumstances. All we have to do is offer the willingness. This day would be of great benefit to any one experiencing or working with illness and dis-ease, whether physical, emotional, mental or spiritual.

David has been exploring spirituality and new consciousness for over twenty years. His association with the College began in 1989. After five years training in spiritual growth, psychic development and healing, David worked at the College for many years as a sensitive, healer and course and workshop tutor. He also led the healing clinic for some time.

The Art of Channelling

SARAH TYLER-WALTERS

Channelling is a misunderstood and often misrepresented aspect of working with Spirit. Today, we will explore its mechanics but also its place in the world of Mediumship. Channelling is a deeper connection than Mental Mediumship but lighter than Trance and sits comfortably between the two. Its purpose is more varied than mental Mediumship as proof of survival is not its focus but it also does not have the physical presence of Spirit that trance does. We will look at the various applications of channelling and the levels of Spirit communicators who want to work in this way. This is a day to learn, evolve and strengthen your connection to Spirit.

No previous experience required.

Help Yourself to Health

HARTMUT WUEBBELER and LINDA CARTWRIGHT

This workshop shows you how to identify areas of weakness which might contribute to poor vitality or ill-health now or in the future, through dowsing. You will learn how to find natural ways of reversing these weaknesses using homeopathic remedies, flower remedies and other healing techniques in order to promote long-term health and well-being. You are invited to bring 'witnesses', e.g. small hair samples of themselves or of friends and family members, who have given permission, attached to a small piece of card, to practise exploring the state of people's energy fields and to consider what natural remedies might help them. Linda will also bring examples from her own practice to illustrate what can be achieved.

Linda Cartwright PhD and Hartmut Wuebbeler MSc are both biologists who have worked in conventional scientific research. They are each also qualified in natural healing techniques and have been practising their respective therapies for over 20 years. They share a commitment to helping people acquire skills with which to help themselves., such as how to investigate areas of weakness in the body's subtle energy structure, which cannot be investigated by any conventional scientific techniques, and strengthen them using natural methods, thereby encouraging health. It is recommended that those attending should be able to dowse using a pendulum. Linda can offer private tuition in London for anyone unable to do so.

The Alchemy of Voice - Stage 8 - Touching Eternity

STEWART PEARCE

This workshop will explore sonic codes that resonate a refined super-coherence into our lives. These codes are crucial at times of planetary transformation, as we move from the love of power to the power of love, and are kept sacred by the wisdom keepers of the most indigenous traditions, who believe that the heart has a secret chamber speaking a language of oneness to all people. As ancient as the rocks and wind, this mode of communication creates a fusion between mind and body, and of thought and feeling. Do come along and experience these inspirational leading edge Heart tools.

An Introduction to the Meridian Energy System of the Body - Part 1

DOE WARNES

An introduction to the meridian system of the body and how to influence the flow of energy to bring integration, balance and healing. This is an established system that has been used for thousands of years in China. After a brief overview of the meridian system, we will tune into the flow of energy or Ki' within the meridian. Once areas of easy flow, no flow and areas of blocked energy have been identified we will apply techniques to re-address the balance. We will locate the 'Bladder' meridian as it lies along the spine and has an influence on all the internal organs. Hands-on and hands-off techniques are used in this workshop.

Touching the Unseen Human Energies -The Breakthroughs and Turning Points

SIR TOM LUCAS

This new workshop in the Touching the Unseen series is designed to show just how you can finally feel and understand your own and others' life-journey, or narrative, in today's confusing me-me world, and thus discover your ultimate life-force potential. Working in pairs and as a group, you will gently try to learn who we really are. In other words, what we have learnt, how we got here and how will we get from here to our future goal. We dream in narrative, day-dream in narrative, remember, worry, hope, believe, learn, build, and make love by narrative. In this workshop we will therefore remind ourselves, in basic practical terms, why and how the ancient combinations of meditation and breathing, together with skeletal and spiritual energy healing, are so ineffably effective in revealing the turning points of our life-journeys. Participants should have either attended one of the previous workshops or already be familiar with the basic concepts of meditation and the chakras. Please wear comfortable exercise clothing.

The Alchemy of Voice - Stage 9 - Rituals of Atlantis

STEWART PEARCE

During the civilization of Atlantis the people lived an advanced spiritual intelligence directed by ritual decoctions. These experiences kindled wisdom through the fire of experience, and accelerated the light body of each person, within the sacred geometry of their Merkabah. During this unique workshop we will engage in two major rituals to achieve this: Heavens Gate and Venus Vision, achieved through Pranic Enchantments and Sona Songs. The rituals are designed to open fifth-dimensionality, and will hugely expand awareness of who you are, connected to higher levels of consciousness, and restored within the memory of infinite possibility.

Discovering the Gift of Your Dark Side

DAVINA MACKAIL

During this workshop you will discover the laws of living magically by learning to face, own and understand the gifts of your Shadow side. As children we are 360 degree radiance; however we lose energy and power by disowning aspects of ourselves as we proceed through life. Based on ancient Shamanic practices this workshop is designed to allow you to recognise and dance with your darker

aspects and reclaim your power and truth. We have a light shadow as well as a dark one and we will explore how you can reclaim any disowned positive aspects of self as well as the negative. In this way you can return yourself to wholeness and experience your true joy. The atmosphere will be safe and supportive to allow you to work deep within your own disowned psyche and claim back your authentic self.

Davina, BA Hons, RGN, DFSNI, is a Master of NLP, hypnosis and time line therapy. She has studied astrology, numerology and is professionally trained in feng shui, geomancy, space clearing and shamanic healing. Davina teaches advanced feng shui for Channel 5's House Doctor, Anne Maurice, is Channel 5's dream expert on The Wright Stuff and is a 'healthy home' expert for many companies.

Sacred Geometry with Crystals

VALERIE PITTS

Geo means Earth and 'metry' means measure. Many of our sacred ancient sites such as Stonehenge and Avebury are laid out in geometric patterns. This workshop studies these patterns and how we can lay them out and use them for our own sacred personal healing work. A day of meditation, insight and healing within a group circle.

Valerie Pitts MICCH is a qualified practising crystal healer who has been facilitating workshops over the last 11 years both at the College and at home. Valerie has appeared in Spirit and Destiny Magazine and has published two crystal healing meditation CDs entitled Love, Light and Joy and The Crystal Journey which helps us to connect with our ancestors in light and love. Valerie works with students to remind them how to heal and empower themselves with crystals in love, light and joy

“A human being is a part of the whole called by us universe, a part limited in time and space.

He experiences himself, his thoughts and feeling as something separated from the rest, a kind of optical delusion of his consciousness.

This delusion is a kind of prison for us, restricting us to our personal desires and to affection for a few persons nearest to us.

Our task must be to free ourselves from this prison by widening our circle of compassion to embrace all living creatures and the whole of nature in its beauty.”

Albert Einstein

Each term the College presents a variety of respected and well-known psychics, mediums and healers from all over the United Kingdom and abroad. While some visit us mainly to give lectures and workshops, we are delighted that many of them also choose to make themselves available for private consultations at the College. Sessions usually last an hour. Please book early as places are limited.

Before booking a consultation, it may be helpful to reflect on **what it is you require from the session**. Do you want evidence of survival (messages from loved ones in Spirit) or spiritual/life guidance? Do you need to see a medium or a psychic, a healer or a spiritual counsellor?

Most consultants allow their **sessions to be recorded**. Sitters are welcome to bring their own recording device. The College no longer provides recording equipment.

It is advisable to wait **six months** from bereavement before booking an appointment with a medium.

It is the aim of the College to demonstrate sensitivity, mediumship and trance of the highest standard. All our consultants have trained for many years and are vetted on a regular basis to ensure standards are maintained. However, please be aware that a consultation is a spontaneous process and the **outcome cannot be guaranteed**. For example, it may not be possible to make contact with a specific person in Spirit but others may come through with messages for the sitter. On balance, a good reading should help you achieve clarity and insight into your life situation, and enable you to move forward with confidence, empowered to make your own decisions. Sessions last for 50 mins.

For those consulting a medium for the first time we would ask that you come to the sitting with an open mind and a willingness to be receptive. More information can be found in our leaflet 'Guidelines on Consulting a Sensitive/Medium', available from Reception.

Your choice of sensitive will largely depend on your needs and so it is recommended that you focus on these when reading the descriptions of our consultants on the following pages.

A sitting is a form of scientific experiment that both parties enter into freely, and the **results cannot be guaranteed**.

All consultations **must** be booked and paid for in advance. All payments must be made at the time of booking.

Please inform your tutor of any medical condition and any prescription drugs or medication taken regularly. No person using any recreational drugs or alcohol on a regular basis can be considered for courses or workshops. The College reserves the right to ask a student to leave a class, rescind membership at its discretion and change the tutor of a course when necessary.

YOUR SUGGESTIONS

The College is always interested in hearing from members with suggestions for new presenters, or from presenters themselves who are knowledgeable in our field. If you have worked with someone who inspired you, please don't hesitate to recommend them to the College by contacting the College Services Co-ordinator through admin@collegeofpsychicstudies.co.uk If you are a presenter, please send us your proposal form (found at www.collegeofpsychicstudies.co.uk/recruitment) and - if possible - a tape or recording of a talk or workshop you have given previously.

DISABLED ACCESS Please check with us before booking as car parking in this area is limited and, at present, we do not have wheelchair access to the building. The Disability Discrimination Act aims to end the discrimination that many disabled people face. In the spirit of the Act, The College of Psychic Studies is committed to making our facilities accessible as fully as practical, for its members, visitors and staff. We are in the process of implementing auditor recommendations in accordance with a rolling programme of works, thus over time making the College more accessible to disabled people, ensuring that we provide a high standard of care to all.
